ICE QUALITY

This tournament will be played on “**arena**” ice. We guarantee high class ice as close as possible to WCF event ice.

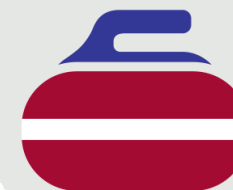

Chief ice maker for this event will be **Patrik Kapralik** from Slovakia. He did a great ice last season for CCT events in Kitzbühel, Aarau and Bratislava and was one of the icemakers in European C group Championships 2017 and World Junior Curling Championships 2015.

Preparation of the ice will begin on Monday evening to get perfect ice on Thursday morning. Ice will be scraped before each draw.

ABOUT THE CITY

Tukums is a small town (about 19 thousand citizens) just less than an hour drive from Riga International airport.

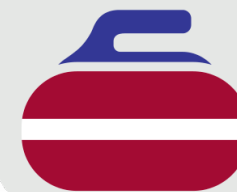

It's surrounded by gardens and situated at the threshold of Kurzeme region. Tukums is a place where the tranquil of a small town can co-exist with the high tempo of contemporary life – a loud and cheery party does not exclude a more tempered tour of the museum.

The old town with its rustic cobbled streets and old houses is excellent for romantic walks in a company of friends. It is also an ideal place for artists of all generations to nourish their inspiration and creativity. In winter the vicinity of Tukums is ideal for skiing. If you dislike the cold, come and skate inside or play some bowling. Or come here in spring, when the whole district overflows with blossoming cherries, apples and pear-trees. In summer the scent of roses is everywhere. Tukums is a town of beauty!

Durbe Manor

The Durbe Manor in Tukums is one of the most interesting Classicism style castles in Kurzeme. At this time, the renovated exhibition halls the 1st floor of the manor offers expositions of the interior of countryside manors, however the 2nd floor halls offers various expositions about manor in Latvia in the 19th century. Durbe Manor Park was established during the time from 1918 until 1838, when the Count Medem reconstructed the Durbe Manor and improved its surrounding.

Straw workshop and museum

Here you can find artworks that have been made with heart and soul, and it can be sensed in all works carefully made of straw by the Rītiņu family. A broad range of decorative straw figures and souvenirs can be seen on display here: gnomes, dragons, devils, witches, frogs, hares, cats, and many more. The artworks are made of 100 % ecological materials: straw, dried grass, and other similar environmentally friendly and safe materials. The created characters are unique and made in various sizes. They are hand-made, original, of high quality and a beautiful artistic presentation. Each visitor to the workshop will find something interesting and useful for themselves and little presents for their friends and family.

Jaunmoku pils

The Jaunmoku Palace was constructed around 1901 as ordered by the mayor of Riga, George Armitsted, and it served as a hunting castle and summer residence. The project of the castle and the horse stable was designed in 1898 by Wilhelm Bockslaff, making the Jaunmoku Castle into one of the most recognised brick buildings in Latvia.

The interior style typical for hunting castles was recreated at the end of the 20th century, however particular attention should be paid to the tile furnaces, one of which was made at the turn of the 19th to the 20th century in honour of the 700 years anniversary of Riga city.

Address: Jaunmokas, Tume parish, Tukums region. T. +371 63107125, 26187442, e-mail: muzejs@jaunmokupils.lv, www.jaunmokupils.lv

Chocolate museum of Pure Chocolate

This is a great opportunity for who are interested to learn the story of the origins of chocolate. Here you can hear and see stories about obtaining, processing, and using chocolate, as well as learn about the chocolate history. The employees at the factory will tell you about the truffle production process in detail and in an easily perceptible and memorable manner. All, who are willing, can “get inside” a truffle box, see and create own truffles, as well as taste them. The products made at Pure Chocolate can be bought in the factory shop.

Address: Pūre – 9, Pūre, Pūres parish, Tukums region. T +371 22100042, www.purechocolate.lv, GPS 57.0361 22.9035

Ķemeri National park and the big Ķemeri bog trail of the large Ķemeri moorland

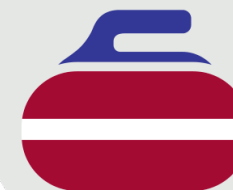

Ķemeri National Park – it is a very versatile territory of 38 165 hectares. Human activity has had relatively small influence on this territory, mainly just in the fishermen’s villages and in the agricultural lands in the area of Slampe, therefore the park is the dwelling place for many rare and protected plant and animal species in Latvia and in Europe. Ķemeri National Park offers specifically created routes, and the tourists can visit the park with a tour-guide from ĶNP or individually.

The footbridge of the Large Ķemeri Moorland (Lielais Ķemeru tīrelis) is the most popular site in the Ķemeri National park. It allows exploring the raised bog untouched by human activity. A footbridge was built in the moorland using wooden planks. It takes you to a world of moss, bog pines, pools in the marsh, dark lakelets accompanied with the scent of marsh teas. The total length of the footbridge is 3 km.

Address: “Tīreļi”, Slampe parish, Tukums region. T. +371 67730078, +371 26424972, www.kemerunacionalaisparks.lv
